

Today I joined Metra's Executive Director Phil Pagano to announce new express trains for the North Central Line serving the 10th district communities of Prospect Heights, Wheeling, Buffalo Grove, Vernon Hills, Mundelein and Libertyville. The express service expansion will save commuters approximately 80 hours a year of traveling to and from work thus spending more time at home. Federal funding for the North Central Line is one of my proudest accomplishments in Congress and will make a real difference in improving the quality of life for Northern Illinois families.
